EDUCATION

Bachelor of Science in Computer Science — SIUE — May 2025

GPA: 3.54/4.0

Relevant Coursework: Data Structures, Algorithms, Software Engineering, Databases, OS, Networks, AI.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C, SQL, Bash, HTML/CSS

Technologies: Git, Docker, Linux, Flask, React, Node.js, PostgreSQL, MongoDB

Tools: VS Code, PyCharm, Figma, Postman, AWS EC2/S3

PROJECT EXPERIENCE**JobMatch Toolbox – Software Engineering Project**

Built job scraping and résumé matching pipeline using Adzuna API, embeddings, Tkinter GUI, Docker.

Campus Marketplace Web App

Full stack React/Node/PostgreSQL student marketplace with auth and admin dashboard.

Image Classification ML Model

Built supervised ML models (KNN, SVM) with preprocessing and visualization.

WORK EXPERIENCE**Software Engineering Intern — InnovateTech Solutions**

Developed data validation automation, microservices migration, monitoring dashboards.

IT Support Assistant — SIUE Computing Services

Provided technical support and built automation scripts.

ACADEMIC HIGHLIGHTS

Senior Capstone: Automated Résumé Parsing & Job Matching System

UPE Honor Society • HackSI 2023 Winner

ADDITIONAL

U.S. Citizen • Willing to relocate • Interests: robotics, programming contests, hiking
